

ROOT OUT ANARCHY, POINDEXTER WARNS

Senator Says Republican Party Must Guard American Institutions.

ATTACKS PARLOR REDS

Conditions in Mexico Laid to Failure of Administration to Act Strenuously.

Speaking before the Fifteenth District Republican Club, at 1041 Madison avenue, last night on "The Future of the Republican Party" Senator Miles Poinexter of Washington carefully refrained from touching upon the peace treaty and the League of Nations covenant.

The first duty of the party, he said, was to stamp out of the country the propaganda of anarchy and revolution. The mission of the party in the immediate future, he declared, was to save the nation from the process of disintegration in progress during the Democratic reign in Washington.

The alien advocates of enforced communism and confiscation should be returned at once and without exception to the country whence they came," said the Senator, "and their aiders and abettors in this country, the so-called 'parlor Bolsheviks,' who contribute money to the revolutionary cause, and to our institutions of the Government of high and low degree, who have encouraged Bolshevik activities, should be exposed and punished."

The new doctrine of internationalism, advocated alike by the Kaiser and his Socialist followers, and by the anarchists and Bolsheviks of Russia and America, should be combated as fatal to our institutions.

Declaring that the administration had abandoned American citizens in Mexico to murder and robbery, Senator Poinexter said:

"The Republican party should elect a president who will fulfill the responsibilities we have assumed in Mexico. He must be an American born and bred, and must be a man of high character, so that our citizens, lawfully in that country, will not be forced to ransom their lives with money. After years of the Government's vacillation and weakness in dealing with Mexico, the suggestion now made in some quarters that Great Britain should be invited to restore order in Mexico should be denounced as fatal to our fundamental policies, and a Republican Congress should restore order in Mexico and adjust on correct principles its international obligations."

The Senator declared that the act of a Democratic Congress internationalizing the Panama Canal should be repealed. On the Philippine question, he said:

"The promise of the Democratic Administration to haul down the American flag in the Philippine Islands should be repudiated, and a Republican President and Congress should make it clear that the blessings of liberty, which the people of those islands have enjoyed under American rule, will be preserved, and the mutual advantages of trade and industrial development under the protection of American law retained for our people. The proposal, while abandoning our responsibilities in the Philippines to assume the government of Constantinople and Armenia, should be repudiated."

Other matters to which the Republican Congress should apply itself were given as follows:

"The extraordinary powers vested in the Executive during the emergency of the war should be repealed at once and government should be restored to a normal basis."

"The direct and oppressive extraordinary taxes, retarding business and increasing the high cost of living, should be reduced and repealed as rapidly as possible. In order to do this the expenditures of the Government should be restored to a normal basis, waste and inefficiency eliminated, war bureaus abolished, and a tariff bill, so framed as to obtain a large share of revenue from import duties, to protect industry, maintain wages, and especially to protect and encourage the new industries established during the war, should be enacted without delay."

Mrs. Simons Wants Captivity.

Mrs. Charles Dewar Simons, organizer of the Richmond County Motor Corps, appeared before Justice Kaib in the Supreme Court at West Brighton, Staten Island, yesterday to demand that the Richmond county chapter of the Red Cross either reinstate her as captain of the motor organization or give her a "fair hearing." Mrs. Simons said she knew of no charges against her until she received a notice from the executive council of the Red Cross informing her she had been removed from office. A demurrer has been interposed in answer to Mrs. Simons' suit.

POSLAM REAL TREAT FOR SKIN THAT'S AILING

Only those who have itched and scratched and still itched continually can appreciate what it means when the aggravation is ended by the soothing, penetrating, antiseptic influence of Poslam. And what relief to be rid of any eruptions, blotches, pimples, or itching skin. Poslam is the only skin treatment that has been found to be so effective. It is the only skin treatment that has been found to be so effective. It is the only skin treatment that has been found to be so effective.

63 VILLISTAS SLAIN AT VILLA AHUMADA

Rebel Forces Are Driven Out of Town.

EL PASO, June 24.—Sixty-three Villistas were killed and many more were wounded Saturday in a fight between Federal troops and Villa forces for possession of Villa Ahumada, according to an official military despatch given out here today.

According to the despatch Gen. Quiroga, Federal cavalry commander, attacked the Villa forces in Villa Ahumada Saturday afternoon. A three hour fight followed, with Federal cavalry charging the Villa positions inside the town. Finally the rebels were forced to retire, leaving their wounded in the town.

Quantities of ammunition and other war elements were captured.

Villa representatives here to-day asserted the Villa forces killed sixteen Federal soldiers and track workmen sent out from Juarez yesterday to repair the Mexican Central Railroad.

SEES HUSBAND FALL TO DEATH IN PLANE

Wife Waves to Lieut. Watson as Machine Bursts Into Flames Over Cottage.

Mrs. Shelley M. Watson, whose husband was a Lieutenant in the Army Aviation Service, came to New York recently from Rogers, Tex., to visit friends at the home of her mother, Mrs. J. M. Watson, who lives at 1101 West 11th street, New York.

Yesterday he came as usual about 11 o'clock. In the machine with him was M. R. Ireland, an airplane mechanic, and another plane accompanied them. Mrs. Watson heard the buzzing of the airplane's motor and ran into the yard of the cottage, where she stood waving her handkerchief at her husband. Suddenly the crowd below heard an explosion and the next instant Lieut. Watson's machine burst into flames and plunged to the ground. Both Lieut. Watson and Ireland tried to unstrap themselves from the machine and jump, but the distance was too short and they failed.

Mrs. Watson fainted as the machine crashed to the ground and was carried to the cottage. Flames dashed from the sides of the machine, setting fire to a nearby cottage, which was extinguished by the Fire Department. The flames, however, arrived too late to be of any assistance to either Lieut. Watson or Ireland, both of whom were burned to death. Lieut. Watson's body was so badly charred that it fell to pieces when attendants from the morgue came to take it away.

The position of the bodies in the plane indicated that Ireland was killed by the explosion in getting clear of the machine, as his body was not encircled by the flames. Lieut. Watson, however, was still strapped to his seat. Last night both bodies were taken to Minolta by the army authorities.

Lieut. Watson was 35 years old and had been eighteen months' service in France.

BIPLANE FALLS IN CEMETERY.

Lieut. Donaldson and Observer Have Narrow Escape.

NEW LONDON, Conn., June 24.—A Curtiss army biplane, piloted by Lieut. J. S. Donaldson and carrying a non-commissioned observer, en route from Minola to Boston, in attempting a take off on Mitchell Field this morning struck a hedge, turned a somersault and landed upside down in Gardner Cemetery. Neither Lieut. Donaldson nor his observer, Sergeant Roy D. Hurt, was seriously injured.

The aviators were strapped in the machine and this probably saved them from being killed, for when sailors who saw the accident came to their aid, they found the two with their heads only a few inches from the ground and their bodies held to the seats by means of the straps. The machine crashed into several tombstones and was badly damaged.

Lieut. Donaldson and Sergeant Hurt will sail for Boston by train today and proceed to Camp Devens, Gardner Cemetery, where the accident occurred, in a small private burial place where the actor Richard Mansfield is buried.

HARRIMAN NATIONAL BANK

Fifth Avenue and 44th Street
NEW YORK

Summer Banking

Are you leaving town for the summer? If so, you do not want your doubtless well earned vacation to be disturbed by petty affairs or personal banking, nor the care of your securities, jewelry, and other valuables.

The Harriman National Bank will receive on special deposit your securities, collecting the interest on bonds, and receiving for credit to your account dividend checks.

Any remittances, as rents or like forms of income, may be made for your account with the bank for acknowledgment to you by mail.

Should you be located distant from large centers, we will transmit currency to meet your needs by registered mail or by express.

The Safe Deposit Vaults of the Harriman National Bank offer modern safeguards for the protection of valuables of small compass.

If you are traveling from place to place, the safest and the best method of carrying funds is by traveler's check, which may be cashed at practically any bank of standing in the United States, Canada, or abroad, and is generally accepted by hotels and business houses in settlement of accounts.

Do not leave town without paying your bills. Recollect that the merchant requires the money to pay his own bills, and he is not always in a position to borrow the funds therefor from his bank. Particularly, pay your bills to the small tradesman, the newspaper dealer, for example. And do not forget to provide for the cat!

**BANKING HOURS FROM 9 O'CLOCK A. M. TO 5 O'CLOCK P. M.
SAFE DEPOSIT VAULTS OPEN FROM 8 A. M. TO MIDNIGHT**

ANTI-LEAGUE MEN PLAN RESERVATION

Republican Senators to Put Clause in Ratification Resolution.

WASHINGTON, June 24.—The real fight on the League of Nations will begin next Tuesday in the Senate.

There is every evidence now that the desires of the Republican leaders in the Senate will be heeded that full attention be given to pushing the regular appropriation bills through.

Discussion of the Knox resolution and the Fall resolution to declare the war at an end so far as the United States is concerned, will not take place until July 1 and after.

Out of the Knox resolution and the Fall resolution and the general opposition to the League of Nations scheme, there is growing a demand for a new form of action to indicate to the President and to the world where the Senate stands on the League question. It is probable that a conference of Republican Senators will be called to determine exactly on what line to follow.

In rough this new plan is to write into the ratification resolution specific reservations which would provide for invalidating the ratification of the League of Nations portion of the treaty unless the other signatories of the peace treaty agree to the reservations made by the United States Senate.

In support of this plan in the conference among Senators who are trying to map out a plan acceptable to the various shades of opposition to the league plan existing in the Senate it is being pointed out that American objections to Article X and other features of the league plan are not to the existence of those articles in themselves, but merely to the United States subscribing to them and being bound by them.

In the ratification resolution, according to this plan, the specific reservation would be made that the entire ratification is invalid unless the other Powers agree to Article X, is not subscribed to or binding upon the United States. Similar reservations with the invalidating clause for nonsubscription by other nations would protect the Monroe Doctrine specifically and surmount the other American objections to the league scheme.

It is an open secret that there has been some discussion about the Knox resolution. Many Senators wanted it taken up now and pushed. Others threatened to veto against it if this plan was followed. Still others urged the wisdom of disposing of the regular appropriation measures before July 1 to prevent the President and his Senatorial followers from charging the Republicans with tactics of obstruction on the supply bills. This view finally prevailed.

There was some bitterness too because the introduction of the Knox resolution was a surprise to some of the Senators. They felt that they had not been taken into or consulted in the party councils and were prepared to kick up a row about this neglect. This feeling is largely responsible for the pressure being brought to bear now to hold a Republican caucus before taking any further steps to fight the league plan.

In addition to the plan to be pursued in the Senate this conference, when it is called, will consider the advisability of "trailing" the President in his junket around the country to try to arouse support for his league scheme."

48 FOUND DEAD IN CYCLONE.

Fergus Falls Officials Think at Least 60 Perished.

FERGUS FALLS, Minn., June 24.—State military authorities in charge of the tornado stricken district of this city to-day had compiled a list of forty-eight persons who are known to have died as a result of the cyclone. The officials in charge to-day estimate the total death list at "not less than sixty."

Mayor George Frankberg to-day estimated that the city's financial loss from Sunday's tornado is not less than \$3,000,000. "A careful survey of the city shows that the early estimate of \$1,500,000 is too conservative, and that the actual loss is at least \$3,000,000," said Mayor Frankberg. "Forty per cent of the residence district is in ruins; about the same portion of the business district has been demolished."

Another resolution introduced would strategically urge the Federal Government to recognize that a state of war exists in northern Mexico between two independent and distinct factions, and that citizens of the United States be permitted to sell supplies both to the Carranza Government and the Government recently proclaimed by Gen. Angeles as provisional President. The resolution was referred to committee.

TEXAS SENATE THANKS ARMY.

Another Resolution Asks Recognition of War in Mexico.

AUSTIN, Tex., June 24.—A resolution was adopted by the Texas Senate commending the Federal Government for its "expressed determination to protect our citizens in Mexico," and especially commending "army officials for their efforts to protect life and property along the border."

Another resolution introduced would strategically urge the Federal Government to recognize that a state of war exists in northern Mexico between two independent and distinct factions, and that citizens of the United States be permitted to sell supplies both to the Carranza Government and the Government recently proclaimed by Gen. Angeles as provisional President. The resolution was referred to committee.

NEW CLUE TO CYCLOPS.

Mother of Seaman Hears Collier Is in Germany.

COLUMBIA, S. C., June 24.—Another of the many clues to the lost collier Cyclops, all of which so far have been exploded, turned up here to-day when the mother of Otis Ramsey, a seaman on the ship, received a telegram from New York saying he was "safe in this country again" and that the missing vessel was in a German port.

The navy records show that Otis Ramsey of Columbia was a seaman on the Cyclops and he is listed as "lost at sea" with the ship. The navy, however, knows of nothing that would clear up the mystery.

Officials think the message probably is a hoax, but as they expect to solve the mystery some day they are carefully looking up every clue.

SING SING BIDS OPENED.

Lowest Total \$1,178,233 for New Prison.

If the low bids opened yesterday by Superintendent Rattigan are accepted the new Sing Sing prison can be built for \$1,178,233. The lowest bid on construction work was filed by the P. J. Carlin Construction Company of this city, \$1,178,233. The next lowest bid was for \$1,087,777, made by Peter Keeler & Co. of Albany. Other bids were: A. E. Stevens Company, \$1,157,000; Warren Moore & Co., \$1,147,597, and Kerwin Estabrook Construction Company, \$1,147,437.

The lowest bids for minor contracts were: Heating, \$59,900, A. B. Barr, Yorkville; Sanitary work, \$15,341, Kenney, Moran & Co.; boilers, \$11,847, John W. Danforth, Buffalo; electrical equipment, \$16,356, Van Wagner, Linn Construction Company. Superintendent Rattigan said he would accept the low bid if he was satisfied the full terms of the contracts could be met. The plans for the prison were drawn by Lewis Filcher, State architect.

SING SING CONVICT LEAPS FROM TRAIN

James McKay Is Recaptured Three Hours Later Entering Schenectady.

OSWEGO, June 24.—Warden Brophy at Sing Sing Prison received to-day two long distance telephone messages from Thomas Wheeler, a keeper, the first detailing the escape by a leap through the window of a moving train of James McKay, a third term convict, who was being taken from here to Auburn Prison with fifty-six other prisoners. The second message told of McKay's recapture by the Schenectady police as he was entering that city after a tramp of four miles. As a result of his escape, it was said here to-night that he would probably be sent to Dannemora Prison, as well as face prosecution for "jail breaking."

Although McKay is only 22, he is a third offender. February 22 last he was sentenced to twenty years by Judge Nash in the Kings County Court for having lured a sailor to a house in Smith street, Brooklyn, where the seaman was robbed of \$125. McKay's attempt at escape is believed to have been inspired by the recent success of John McAllister, a burglar, who made his getaway through the old ruse of leaving a dummy in his cell.

The train on which the prisoners were travelling yesterday had left Schenectady for Utica and was just beginning to gather speed near Amsterdam when McKay, who had disguised the handcuffs which bound him to a fellow convict, rose and leaped headlong out of the open window. He landed on his head and his face was cut and bruised and both eyes blackened it was found after his recapture.

The train was stopped and Keeper Ferguson, in charge of the party, made his way to the nearest telephone, where he sent an alarm to the police of nearby cities and towns, with the result that three hours later McKay was caught in the outskirts of Schenectady. Warden Brophy was arranging to hurry guards to Amsterdam and was printing cards with McKay's photograph and description to be sent broadcast when the news that he had been retaken was received. A keeper started for Schenectady immediately.

Of all the convicts who have sought freedom by jumping from train windows none has been recaptured as promptly as was McKay. It is attempted with reasonable frequency. On the day in 1913 that Edward S. Stokes, who killed Jim Pink, was being taken to Auburn, a fellow prisoner, Edwin Emmerly, plunged from a car window near Utica. Stokes saw him ground to death beneath the wheels.

Bank Robbers Get \$5,000.

DETROIT, Mich., June 24.—Four armed men entered the River Rouge State Bank in the suburb of River Rouge shortly before noon to-day, held up the cashier and another employee and escaped with \$5,000 in cash.

GERMAN EMBASSY TO BE OPENED SOON

Diplomatic Relations With Teutons Will Be Resumed Gradually.

WASHINGTON, June 24.—Resumption of diplomatic and commercial relations between Germany and the Powers with which she has been at war will come gradually after the signing of the peace treaty, according to officials here. The United States and Germany will not resume relations until the treaty is ratified or until the state of war has been declared ended by Congress.

The first move toward resumption of relations will be along commercial lines. German consuls and a German consul general will be accredited to the Entente countries, and their consular officers will be sent to the same German centers in most cases that were selected before the war.

Regarding the German embassies in France, Great Britain, Italy and Japan, and respecting the embassies of these countries in Germany, the anticipated plan is for agents, minor officials and a charge d'affaires to be assigned to duty in each case, leaving the appointment of Ambassadors for later.

The same will apply to the United States when peace is established between this country and Germany. Some little time is expected to elapse before an American Ambassador goes to Germany or before a German Ambassador presents his credentials here. However, the German embassy on Massachusetts avenue will again fly the German flag and be the home of German diplomatic representatives as soon as peace is formally declared.

In connection with the appointment of diplomatic representatives, especially Ambassadors to Germany, the Powers will probably wait until there are signs that the present Government in Germany is solidly established.

IS THIRD TERM AT 22

Young Robber Was on Way to Auburn to Serve 20 Years.

OSWEGO, June 24.—Warden Brophy at Sing Sing Prison received to-day two long distance telephone messages from Thomas Wheeler, a keeper, the first detailing the escape by a leap through the window of a moving train of James McKay, a third term convict, who was being taken from here to Auburn Prison with fifty-six other prisoners. The second message told of McKay's recapture by the Schenectady police as he was entering that city after a tramp of four miles. PAIGE

The Most Beautiful Car in America

In summer it is a splendid treat to leave the noisy, sweltering city far behind you and get out into the "Open Place" where the air is pure and nature looks at her best. It means healthy recreation for every member of the family. It means better spirits, stronger lungs, brighter faces and keener appetites. It means a new conception of the joy of living.

A Paige five-passenger "Linwood" will make such excursions possible with maximum comfort and minimum expense. That powerful six-cylinder motor is unfailing—the spring suspension turns every road into a Boulevard. All you need is a little gasoline, oil and water. You can then depend upon your car to do the rest.

New Series Linwood "Six-39"—five-passenger—\$1555
New Series Essex "Six-55"—seven-passenger—\$2660

BURGLARS ROB JAIL OF \$2,500 IN BOOZE

Take 120 Gallons Away in Two Automobiles.

SPECIAL DESPATCH TO THE SUN.

ASTLAND CITY, Tenn., June 24.—Using saws and other tools burglars early this morning gained entrance into a cell of the Cheatham county jail and carried away 120 gallons of liquor, valued at more than \$2,500. The liquor had been captured by officers from blockade runners and stored in the cell. The burglars had a plan. They entered the building by raising a window and walked up stairs to the second story, where the cell in which the liquor was stored is located. The burglars evidently being familiar with the arrangement of the building, the door of the cell was locked, but with saws and other tools which were found on the floor of the jail after the robbery, they readily succeeded in opening the door.

The burglars made good their escape and no arrests have been made.

TROLLEY STRIKE IS ENDED.

3,500 Eastern Massachusetts Men Will Return.

BOSTON, June 24.—The strike of about 3,500 car men of the Eastern Massachusetts Railway Company was officially declared ended to-night and the cars will resume their regular schedule to-morrow morning.

This action was taken at a meeting here of the conference board of ten local unions that had been on strike.
